Jazz Harmonies

Colorful jazz-harmony extensions are bossa nova's foundation.

When you see a progression, instead of playing this:

...play this:

Diagram illustrating the difference in playing jazz harmonies. It shows two approaches for a progression: G^m, G^b, F, G^m7, G^b7, and Fmaj7.

Left Approach (Incorrect): Shows complex, multi-note chords (triads and dyads) for each harmony, often requiring multiple fingers (e.g., 1 3 4 1 1 1 for G^m). The corresponding guitar TAB shows complex fingerings with many frets (up to 5).

Right Approach (Correct): Shows simpler, more efficient chord voicings for each harmony. The corresponding guitar TAB shows simpler fingerings, often using the 3rd, 2nd, and 1st frets (e.g., 3 2 1 for G^m).

And every star in heaven takes her shape

Sofia fly into blue sky
And I will stay at home, be at home
I said darling while you're gone I will hold the place
I said now darling while you're gone I will hold the place
